

5/5/14

To Whom It May Concern:

I have been working with Mechanical Associates as a representative in the Florida region for Contech Engineered Solutions, INC. We integrate Mechanical Associates gates into many of our projects. Each project requires custom fabrication and close coordination between our company and Mechanical Associates. They are always willing to help us match the right product for the right application.

Here at Contech, we are more than happy to work with Mechanical Associates because of their customer focus and reliability. Mechanical Associates responds in a timely manner while attending to the needs of our customers while producing a high quality product. Their entire staff is dedicated to making the best possible gates on the market.

If you have any concerns please feel free to call me or email.

Tom Masterson, P.E.
